UNIVERSAL SST **ROLLER**

Stark universal manual processing roller base for all tanks

Move up to the highly accurate and repeatable world of rotation processing, save time and materials and get excellent results. Save space and electricity by rolling your tank/drum in place, by hand. Will handle any and ALL film/print processing tanks, large or small. Infinitely adjustable for use with most tank system in the world. Big easy going rollers ensure proper grip no matter what tank system is used. Ideal for BW processing, or any other process run at room temperature. Chemical resistant materials.

Technical Data

- length: 320 mm
- width: 170 mm
- height: 82 mm
- drum diameter: 80 up to 300 mm
- drum length for diameter 80 - 100 mm max.: 30 cm
- drum length for diameter > 100 mm ca.: 70 cm
- max. load ca.: 8 kg
- max. drum rotation speed: depends on drum size
